

Make milk bottle 'recyclephants'

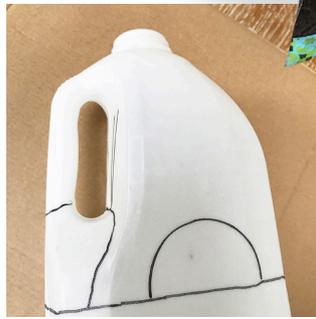

...with ears!

You will need...
plastic milk bottles,
marker pen, scissors,
adult help!

Decorations: tissue paper,
PVA glue, paint, (whatever
you have to hand) wiggly
eyes (if you don't have them
draw or paint them on)

1. Gather your materials, smaller bottles make baby elephants!

2. Use a pen to mark out legs...

3. ...and a tail

4. On the bottom of the bottle, draw round the lid, then draw ears on the sides.

5. Add tusks if you want to, mark two slits forming long triangles either side of the trunk.

6. Carefully cut the shapes out.

7. You now have ears and body, ready to decorate.

8. Paste on tissue paper. You could use paint, it's up to you!

9. Let it dry thoroughly.

10. Place the ears on the top and screw the lid on.

11. Stick on wiggly eyes if you have them.

Have fun!
